Reading Questions for Tuesday, February 12, 2019

We ask you to submit comments on the following paper by midnight Monday February 11:

- Eclipse Attacks on Bitcoin's Peer-to-Peer Network.

Your comments should include both answers to the specific reading questions and generic response about the paper. You are welcome to include any questions you have about the paper in your comments. After submitting your own comments, you'll be able to see others' submitted comments. You can comment on others' submissions and answer raised questions on Canvas. Discussion on Canvas is strongly encouraged.

1 Reading Questions

1. Describe how to engage an eclipse attack and what resources are needed.

2. What does the experiments in Section 6 show with respect to infrastructure vs. botnets attacks?

2 Generic Response

Respond to the paper following the guidelines in the course syllabus (under "Submit Comments and Presenting Papers").
