

Fundamentals of Biostatistics
STAT E102 Spring 2015
Instructor: Bernard Rosner, PhD

1. Homework Deadline

- Deadline: **Tuesdays at 5:30PM**
- LATE PROBLEM SETS ARE **NOT** ACCEPTED

2. Homework Submission

- You can submit your homework assignment on Canvas. Go to “Assignments” → click on “Homework #” → on the top right corner click “Submit Assignment” and upload your assignment.
- Do NOT submit multiple files for one problem set. Only one file will be graded.
- The files must be either Microsoft Word (.doc .docx) or PDF document. If we cannot open the file, it will not get credit.

3. Homework Grading

- Homework is graded by your TA in large part on the clarity of your presentation of the solutions, not just their correctness. You **must show work** to receive full credits.
- For questions using STATA, R or Excel, answer must include the output.
- Do not provide two answers to a single question.
- All homework will count toward your course grade and we will not drop any homework grades.

4. Academic Integrity

You are responsible for understanding Harvard Extension School policies on [academic integrity](#) and how to use sources responsibly. Not knowing the rules, misunderstanding the rules, running out of time, submitting “the wrong draft,” or being overwhelmed with multiple demands are not acceptable excuses. There are no excuses for failure to uphold academic integrity.
